

## 2025 Information and Rules

**Lifetime Sire Slots:** There are 3 remaining lifetime sire slots from the 20 total. Slots will be first come first serve and the invoice must be paid in the day it was received or the slot will roll to the next one on the list. The cost of a lifetime sire slot is \$2,000. Owners of a lifetime sire slot can change sires each as they see fit. Sire slot owners can also lease or sell their slot with approval of the Super Select Sire Incentive (SSSI). A lifetime sire slot owner can enter into a partnership/lease agreement to nominate a sire they do not own; however, the agreement must be sent to SSSI along with the nomination.

**Annual Sire Slots:** Each year, there will be 5 annual sire slots sold by auction. For 2025, the slots will be auctioned after the remaining lifetime sire slots are sold.

**Sire nominations:** Each sire has an annual nomination fee of \$7,500. In addition, each sire must have at least 1 performance animal nominate each year. Sires for 2025 must be named by April 15, 2025, at which time the annual nomination fee of \$7,500 is due along with the completed nomination form.

**Performance Animal nominations:** Animals sired by an Incentive enrolled sire are eligible to compete in the Incentive futurity with a paid Performance Animal Nomination. The annual nomination is \$1000. 2023 born calves will determine eligibility by the 2024 and 2025 sire list. The 2024 born calves will determine eligibility by the 2025 sire list. Nominations are due by June 1, 2025.

If an eligible performance animal pays their nomination the first year it is due and continues to pay each year, that animal will remain eligible for the annual incentive event even if their sire is not paid in for the current year. For example: If a calf entered the 2024 Sire Incentive and that sire is not on the 2025 sire list, he is still eligible to enter the 2025 event if the 2025 performance animal nomination is paid. He will remain eligible through his classic year as long as the performance animal nomination is paid each year. If a performance nomination is missed, to reinstate in the program, the current year nomination must be paid in addition to a \$500 penalty. For example, you have a 2023 born calf sired by 75 Billy Frank that did not pay the 2024 nomination, he can be reinstated by paying the 2025 nomination along with a \$500 dollar penalty for a total of \$1500.

The nomination is in addition to the entry fee for the 2025 event.

**2025 Event:** The 2025 SSSI event will be held November 22, 2025, at Belton, Tx for 2023 and 2024 born calves. 2024 born Heifers will be eligible to compete. The event will be open to all animals; however, Incentive money will only be paid out to offspring of nominated sires that have paid the performance animal nomination fee. The 2024 event will be 80% payback. The goal for the annual Incentive event is to have Yearling through Classic classes. The incentive money will be paid out proportionate to the nominated animals in each class.

The hybrid format will be used in both the Futurity and Yearling divisions – Open, Big Gamble, Longshot Shootout.

**Incentive Breakdown:** The incentive money will be paid out at 80%. Of that, 40% of the incentive money will be paid to Sire's, 40% to performance animals, and 20% to the individual that nominates the performance animal.

**2024 Sires**
